Wed., June 25, 7:30 – 8:30 pm

*ANJEC is reducing the carbon footprint
of our programs!*

A New, Green Approach to Learning

ANJEC's new web-based seminars let you learn without going anywhere! Save time and avoid generating greenhouse gas emissions and air pollutants!

Introducing a new format for ANJEC's basic environmental commission training - *the webinar* - a simultaneous webcast and conference call. This virtual seminar series makes it easy to get the information you need to be an effective environmental commissioner, protecting environmental resources at the municipal level.

Attend this course wherever you choose - at the office, in the town hall, or kick off your shoes and participate in the comfort of your own home! All you need is an internet connection and a separate phone line. Listen to ANJEC experts talk while you view the Power Point slides on your computer screen. Participants can review a recorded version of the webinar on our website following each session.

Your commission may wish to participate as a group, and save money by sharing one registration. Just have members gather to listen on a speaker phone while viewing the presentation on one computer screen.

The webinar series will be offered on three Wednesday evenings in June, from 7:30 to 8:30pm.
