

# ANJEC Environmental Commissioners' Handbook

*New, updated fifth edition now available!*

"The authors did a wonderful job of packing so much information into a rather thin book. It is loaded with facts but written in a very engaging style so that it is quite easy to read."  
*Ralph Rhodes, Co-chair Mendham Township EC*

## Special introductory offer for ANJEC members

- ◆ **FREE with each copy**—*The Environmental Manual for Municipal Officials*, ANJEC's 176-page guide on state and federal environmental laws and how they relate to local protection efforts (usually \$12). Offer good till May 1.
- ◆ **50% DISCOUNT** off \$12 price when you order 7 or more copies.

### What's inside:

- How effective commissions get the job done
- Developing an Environmental Resource Inventory and why it's so important
- NEW CHAPTER - Land use issues in developed and urban communities
- The State Plan and regional protection areas—and how they fit with municipal planning
- What every commission needs to know about subdivision and site plan review
- Energy conservation and sustainability
- Pollution control—from stormwater to solid waste to hazardous substances
- All about ordinances and where to find samples
- And MUCH MORE!
